

# Ford Website Update!

The Ford Meter Box Company website has always been a great online source for information, but we knew we could make it even better. The entire site has been redesigned to make navigating faster and easier. Information has been divided into categories on the home page to reduce time needed to obtain the desired information.

The "Download" category provides access to Ford catalog sections, brochures, flyers, *The Meter Setter*, and other publications. Submittal sheets have their own area and are divided by catalog section. This makes finding the submittal you need fast and easy.

If you are looking for a Ford distributor in your area, simply click on the "Distributors" category. You will immediately be directed to the map and listing of Ford's network of stocking distributors.

The Ford website has been improved so that water works professionals can locate required information promptly and efficiently. See for yourself by visiting [www.fordmeterbox.com](http://www.fordmeterbox.com).
