

THE NEW FORD SIMTAP™

LIGHT WEIGHT, POWERFUL, AND EASY TO USE

For decades the Ford Drilling Machine has provided a fast and convenient option to large and cumbersome machines. To complement our tried and true Drilling Machine, Ford Meter Box is happy to introduce the Ford **SIMTAP™**.

The Ford **SIMTAP™** is an excellent option for the contractor or utility wanting the flexibility to make a fast and easy tap without pulling out the big machines. The **SIMTAP™** drilling machine assembles in seconds and works with most corporation stops. **SIMTAP™** is powered by a 1/2" pneumatic drill, operating at low rpms, which virtually eliminates the risk of melting PVC and resists overheating during multiple taps.

FEATURES

- The standard **SIMTAP™** kit contains
 - 1/2" pneumatic drill
 - Complete set of adapters
 - Carbide tipped cutters
 - Assembly tools and carrying case
- **SIMTAP™** kits are available without adapters or without drill for ordering customized sets
- Taps Ductile Iron, PVC Pipe and Asbestos Cement
- Also can be used with battery operated drill

The Ford **SIMTAP™** will be available for delivery after July 1, 2011.

For additional information on the Ford **SIMTAP™** or any other Ford product, contact your local Ford Distributor or The Ford Meter Box Company.
