

REPAIR CLAMPS! We are ready - are you?

When a water main breaks, you need a repair clamp fast! Ford Meter Box stocks a wide variety of repair clamps in preparation for the cold winter months ahead. We are ready, are you?

Don't be left out in the cold this winter. Expect the unexpected and stock your shelves today with Ford repair clamps. Contact Ford Meter Box or your local Ford distributor for additional information.

SMALL REPAIR CLAMPS TO REPAIR PINHOLES AND OTHER SMALL LEAKS FOR SIZES 1/2" THROUGH 2"

- **Snap Clamps** offer a handy and economical way to repair pinholes and other small leaks that don't require a full 360° gasket seal.
- **Wrap Clamps** offer the same leak repair features of the Snap Clamp with the extra assurance of 360° gasket coverage.
- **Dual-Armor Wrap Clamps** provide the added support of an armored gasket that surrounds the pipe offering full wrap-around coverage to provide maximum protection against leaks.

REPAIR CLAMPS FOR SIZES 4" THROUGH 24" *LARGER SIZES AVAILABLE UPON REQUEST.*

- **F1, F2 and F3 Style Repair Clamps**
 - 18-8 Type 304 stainless steel band
 - Gridded SBR rubber gasket (optional Buna-N rubber)
 - Low alloy bolts and nuts
 - Ductile iron lugs with shop coat
 - 18-8 Type 304 gasket armor
- **FS1, FS2 and FS3 All Stainless Steel Style Repair Clamps**
 - 18-8 Type 304 stainless steel band
 - Gridded SBR rubber gasket (optional Buna-N rubber)
 - 18-8 Type 304 stainless steel studs, nuts, lifter bar and lugs
 - All welds are fully passivated

Recent design improvements to Ford's FS Style Repair Clamps eliminate sharp edges. A refined lifter bar and lug profile also improve the installation experience.

Bill Qualls, Ford Meter Box Sales Representative for Nebraska, Kansas, and Missouri, recently visited a water works distributor in Kansas City with shelves stocked and ready for winter.
