### **Ford Meter Box Reinforced Concrete Cylinder Tapping Sleeve**

The fragility and porous nature of concrete pipe requires a specially designed tapping sleeve like Ford's FRCTS(C). The Ford® Reinforced Concrete Cylinder Tapping Sleeve provides pipe reinforcement and easy installation with a secure seal.

The FRCTS(S) is suitable for 8" – 60" pipe sizes with 4"-30" outlets and carries a 175 psi working pressure. The inner tapping outlet gland allows the sleeve to reinforce the pipe before the tap is made, ensuring a secure tap.

For more information on this product, contact Ford Meter Box® Customer Service at 260-563-3171 or online at [www.fordmeterbox.com](http://www.fordmeterbox.com).
