### **Ford Sampling Station**

Ford's Retrosetter Sampling Station makes drawing water samples easy. Simply disconnect the meter, connect the Retrosetter to the existing meter setting and reinstall the meter. The valved extension tube quickly connects to the male quick disconnect assembly on the Retrosetter. Ford offers many sampling station configurations with custom operating valves, connections and tubing lengths available. For more information, check out our website at [www.fordmeterbox.com](http://www.fordmeterbox.com).
