

Adjustable Pit Setter

(Patent 11,668,078)

Product Release

01/2021

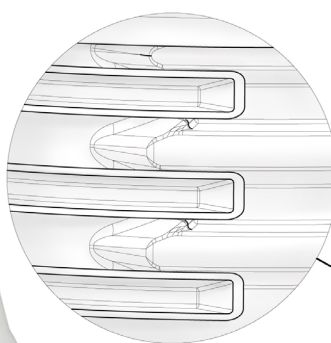

Need an Adjustment?

If your meter pits are not level with the ground surface, Ford Meter Box has the solution. The Ford® Adjustable Pit Extender easily connects to the top of an existing pit to increase its height and ensure the cover is level with the surrounding surface. With 12" of adjustability, you can be sure your pit cover is at the proper grade. In addition to adjusting the height of an installed pit, the Adjustable Pit option is also available to order on new pits for situations where final grade may be unknown.

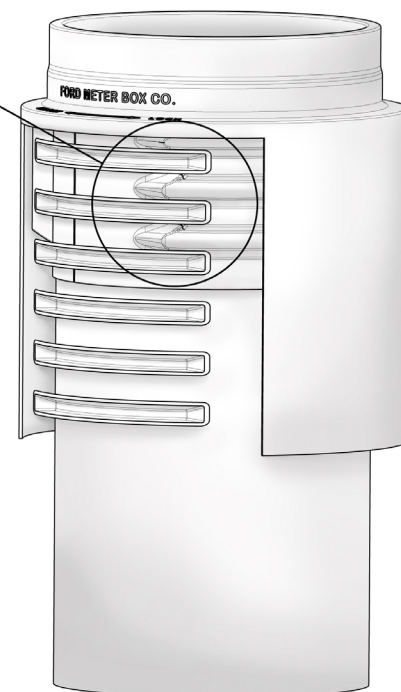

Height adjustment increments are clearly labeled on the inside wall.

Lids ordered separately

OUTER RING CUTAWAY
SHOWING PARTIAL ROTATION
INTO LOCK POSITION

Features:

- High strength HDPE construction
- Four 3" incremental height adjustments
- Available for 18" standard pits and coil pits
- Labels identify height and operational guides
- Positive stop provides confidence of correct positioning and locks desired position
