

Indianapolis/Akron Test Bench

Product Release

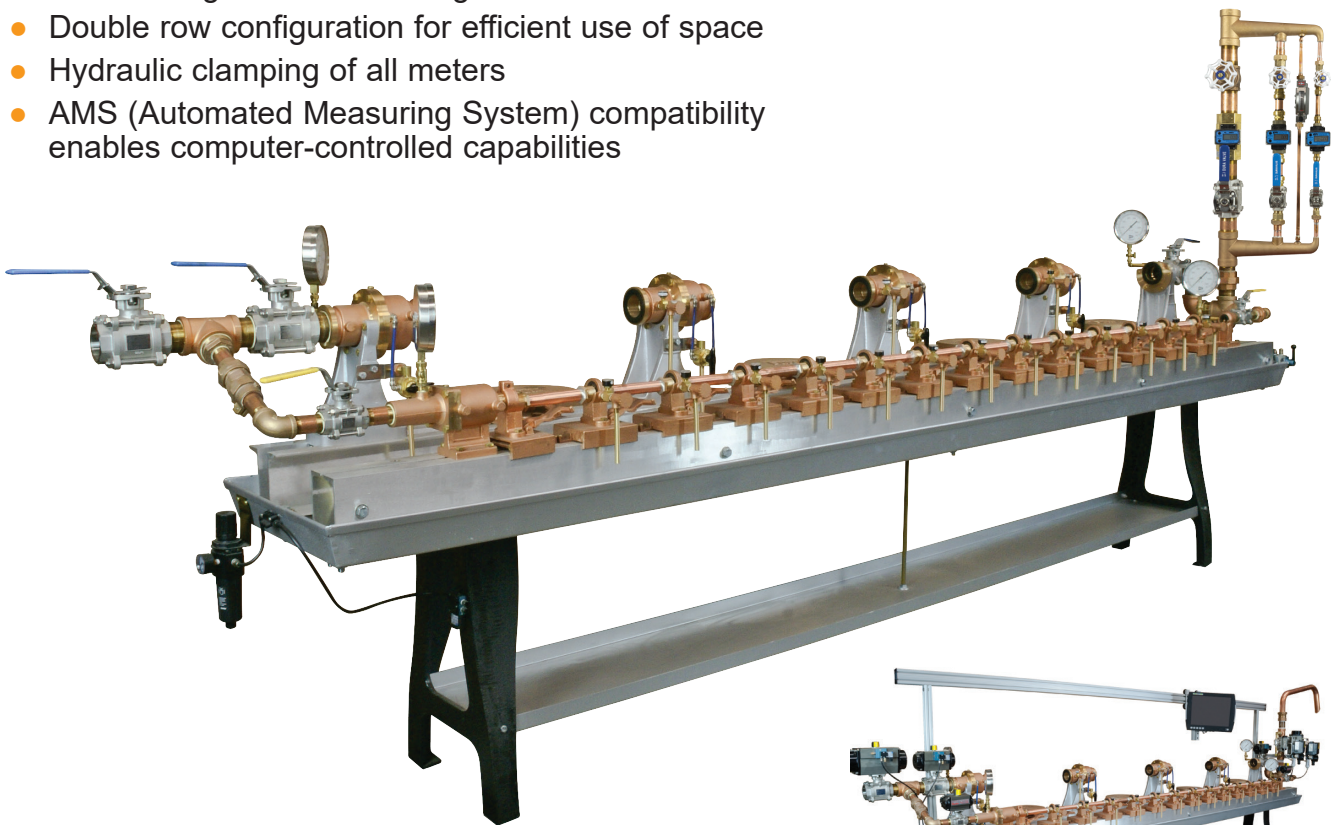

04/2020

Combination Test Bench

Testing meters has never been more efficient! Ford Meter Box presents a hybrid test bench that brings together the best features of our two most popular benches. This all-in-one bench can support testing of 5/8" through 2" meters, giving any meter shop an edge at recovering lost revenue.

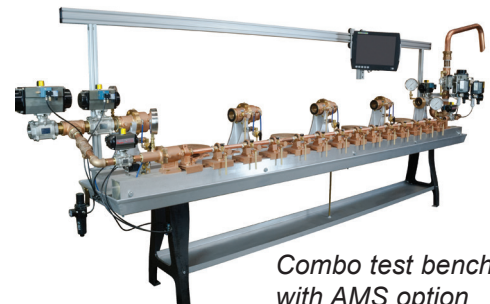

Features:

- Combined test bench encompassing Indianapolis and Akron functionality
- Widest range of meter testing allowable
- Double row configuration for efficient use of space
- Hydraulic clamping of all meters
- AMS (Automated Measuring System) compatibility enables computer-controlled capabilities

Indianapolis Features (small meter row):

- Holds up to 14 meters on a single row
- Allows 5/8" through 1" meter testing
- Each station includes easy-to-use bleeder valve equipped with pressure gauge
- Proper meter spacing is automatically set, reducing time loading and unloading meters
- Spring forks in each setting simplify meter insertion
- Seamless aluminum gliding track offers easy maneuverability

Combo test bench with AMS option

Akron Features (large meter row):

- Holds up to four meters on a single row
- Allows 1-1/2" through 2" meter testing
- Adjustable pedestals to support weight and ensure proper installation of large meters
- Optional adapters to test 5/8" through 1-1/4" meters
