Extra Long Curb Stop Valves for Cut-in Applications

Ford's extended length curb stop valves make changing out an existing valve even easier! Don't stress about the replacement gap after the old valve is removed. The extended length curb stop valve eliminates the need for additional couplings and tubing to create the correct lay length for the replacement valve. Available in Minneapolis style and standard for Arch pattern curb boxes.

A variety of end connections are available. Contact Ford Meter Box® customer service at 260-563-3171 for more information.
