

FIRE SERVICE BRANCH

Product Release

09/2012

Separation of incoming water service for fire and domestic applications

U3MM-44-5-NL

- Separate service lines for domestic and fire service applications
- 5" outlet centerline separation to address valve handle access
- Improves installation by having fire service (F) and domestic (D) markings on same respective side of branch no matter which side is up
- All brass that comes in contact with potable water conforms to AWWA Standard C800 (UNS NO C89833)
- Made in the USA

Contact The Ford Meter Box Company or your local Ford distributor for information on optional inlet and outlet connections or optional valve assemblies.
