

Transition Gasket

(U.S. Patent No. 10371262)

Product Release

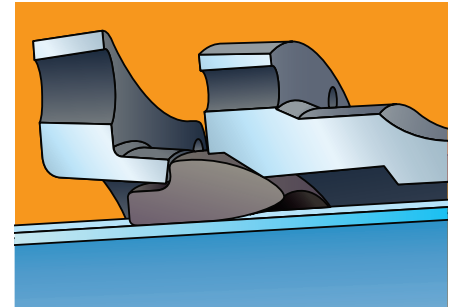

08/2019

Bridging the Gap on Steel Size Pipe

Joining the family of the SO-EZ Gasket, the Ford TGA Transition Gasket for IPS (PVC) and steel pipe allows for smaller diameter pipe to be used with a standard mechanical joint fitting or valve. The TGA Gasket is easy to install and rated at 250 psi on steel pipe (or equal to the full rating of PVC pipe).

Features:

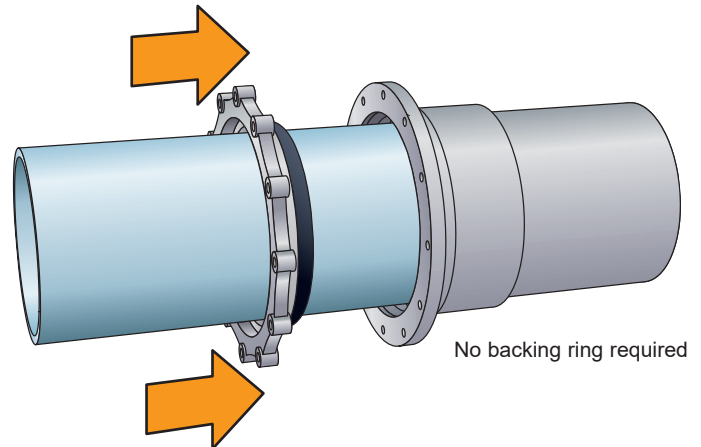

- 250 psi rated working pressure on steel pipe with a 2:1 safety factor (for PVC, full rating of the pipe with a 2:1 safety factor)
- Snaps to compression lip I.D.
- Gasket maintains alignment of pipe and gland/gasket assembly
- For use with steel pipe and IPS (steel size) pipe 14" – 24"
- No backing ring required

(shown installed)

TGA Transition Gasket
