

GET IT STRAIGHT FROM FORD

The Ford Meter Box Company introduces an optional 4" through 12" mechanical joint (MJ) outlet on the FAST and FTSS all stainless steel tapping sleeves, and on the FTS style carbon steel sleeve.

The MJ outlet has a unique design that provides straight and accurate alignment between the tapping sleeve and a standard MJ valve. Made with Ford's traditional focus on strength and quality, the Ford MJ outlet provides an easy and secure attachment to an MJ valve.

FAST with MJ outlet

For more information about Ford's optional MJ outlet, contact your local Ford distributor or The Ford Meter Box Company, Inc.
