

The Meter Setter

The New Ford Ultra-Tite

PEP/IPS Ultra-Tite
(White Gripper Ring)

PET/CTS Ultra-Tite
(Red Gripper Ring)

The Ford Meter Box Company is pleased to introduce the Ford Ultra-Tite compression fitting for Polyethylene Pipe and Polyethylene Tubing. The Ford Ultra-Tite compression fitting provides an immediate lock onto PEP/IPS or PET/CTS when the service line material is inserted into the fitting against the internal stop. This simple stab fitting will be available beginning March 2010 on the following 3/4" and 1" couplings:

MIP x PET/CTS Ultra-Tite	C84-33-U (3/4") and C84-44-U (1")
FIP x PET/CTS Ultra-Tite	C14-33-U (3/4") and C14-44-U (1")
MIP x PEP/IPS Ultra-Tite	C86-33-U (3/4") and C86-44-U (1")
FIP x PEP/IPS Ultra-Tite	C16-33-U (3/4") and C16-44-U (1")

The following Ultra-Tite couplings will be available by April 2010:

PET/CTS x PET/CTS Ultra-Tite	C44-33-U (3/4") and C44-44-U (1")
PEP/IPS x PEP/IPS Ultra-Tite	C66-33-U (3/4") and C66-44-U (1")
Female Copper Flare x PET/CTS Ultra-Tite	C04-33-U (3/4") and C04-44-U (1")
Female Copper Flare x PEP/IPS Ultra-Tite	C06-33-U (3/4") and C06-44-U (1")

The Ford Ultra-Tite is for applications on polyethylene pipe (PEP) or tubing (PET) only. The use of a tubing insert is not required or recommended.

Beveling the end of the pipe or tubing with the special chamfering tool permits proper engagement of the pipe or tubing into the socket. Removing the Ultra-Tite from the pipe or tubing requires a removal tool to release the compression between the gripper and the pipe or tubing, (1" size requires the use of two tools). O-Ring and Gripper Ring replacement is recommended prior to re-using the fitting.

Chamfer Tool Part Numbers:

PECT-3-CTS (3/4" PET/CTS)
PECT-4-CTS (1" PET/CTS)
PECT-3-IPS (3/4" PEP/IPS)
PECT-4-IPS (1" PEP/IPS)

Removal Tool Part Number
UTRT-520200

For more information about the Ultra-Tite compression coupling, contact your local Ford distributor or The Ford Meter Box Company, Inc.
