

RESTRAINED COUPLINGS ARE NOW SO-EZ!

RCDD

(Ductile Iron Pipe x Ductile Iron Pipe)

RCPP

(PVC Pipe x PVC Pipe)

RCDP

(Ductile Iron Pipe x PVC Pipe)

Restraining your pipe coupling just got SO-EZ using Ford's restrained coupling. Designed with the UFR1400 or UFR1500 restraints *AND* the SO-EZ gasket, these restrained couplings accommodate a wider range of nominal size pipe than any other.

The SO-EZ gasket allows for a true stab-fit pipe insertion. The gasket design centers and maintains alignment of the pipe and coupling assembly. SO-EZ's rubber thickness, flexibility and design permits compression to a wide range of ODs. The gasket is made of SBR rubber and is NSF Standard 61 Approved.

Available in sizes 4" through 12", these epoxy coated couplings are made with high quality ductile iron and corrosion resistant, high strength, low alloy steel rods and nuts.

For additional information on this, or any other Ford product, contact your local Ford Distributor or The Ford Meter Box Company.
