

The Meter Setter

fordmeterbox.com

In August of 1996, Ford Meter Box stepped into the world of the Internet. Since that time, the Ford web site has evolved into a valuable source of information for our customers and distributors. Thousands of people around the globe use fordmeterbox.com on a regular basis. This month we are happy to introduce a search feature that makes the Ford web site even more user friendly.

SEARCH

This is the latest feature of the Ford web site. Search will allow you to query the web site and find items quickly. Look at the bottom of any page for this feature.

SUBMITTALS

The Submittal area of fordmeterbox.com is the most visited part of the web site. More than 1300 product submittals can now be found on line. These files are posted as Acrobat® PDF files and can be opened and printed on most computers.

INSTALLATION INSTRUCTION

All Ford Meter Box installation instructions can be found at fordmeterbox.com. The ability to download an instruction sheet is helpful in assuring proper installation of Ford products, and also serves as a good training tool for new employees.

DISTRIBUTOR LOCATOR MAP

Another much visited part of our web site is the distributor map. If you are looking for your nearest Ford distributor, you can find one by simply clicking on the state.

OTHER FILES FOR DOWNLOADING

The Ford **Cross Reference Sheet** can also be downloaded as a Microsoft Word file.

Also available to download as an Acrobat® file are all of Ford's 20 catalog sections that cover our entire product offering.

The **Ford Meter Setter** articles from the past several years serve as good information resources on products, people, and events in the water industry.

The **Thrust Restraint Program** is very helpful when calculating the restrained length of a pipe project. This program is offered two ways. One is a Windows® version and the other is a DOS version. Simply download the file and "unzip"!
