

Ford Is Prepared For The Winter Freeze

The winter months can be extremely damaging to water pipes when freezing temperatures split or crack pipes. Ford Meter Box has a variety of repair clamps on the shelves in preparation for the cold winter months ahead.

Small repair clamps to repair pinholes and other small leaks for sizes 1/2" through 2"

■ **FSC Snap Clamps** are for leaks that do not require a full gasket seal

- Heavy gridded Buna-N gasket
- 18-8 Type 304 stainless steel band
- Ductile Iron lugs
- AISI C1018 steel

■ **FSC (R) Wrap Clamps** have an armored gasket that provides 360° coverage

■ **FLSC Styles** are the above repair clamps in all stainless steel

Repair clamps for sizes 4" through 24", larger sizes available upon request.

■ **F1, F2 and F3 Styles**

- 18-8 Type 304 stainless steel band
- Gridded SBR rubber gasket (optional Buna-N rubber)
- Low alloy bolts and nuts
- Ductile Iron lugs with shop coat
- 18-8 Type 304 gasket armor

■ **FS1, FS2 and FS3 Styles**

- 18-8 Type 304 stainless steel band
- Gridded SBR rubber gasket (optional Buna-N rubber)
- 18-8 Type 304 stainless steel bolts and nuts
- 18-8 Type 304 stainless steel lifter bar
- 18-8 Type 304 stainless steel side bar and lugs
- 18-8 Type 304 gasket armor
- All welds are fully passivated

All of Ford's repair clamps are manufactured in our Pell City, Alabama, facility.

Don't be left out in the cold this winter without the right repair clamp. Expect the unexpected and stock your shelves today with repair clamps from Ford Meter Box.
