

Don't Get Caught Empty-Handed

Frigid temperatures are coming, and frozen pipes are likely to follow. The Ford® Emergency Repair Clamp Kit contains stainless steel bands that combine in various configurations to provide quick and reliable pipe repair for most pipe diameters between 4.50" and 33.74". The kit's components are neatly arranged in a durable and restockable case that can be stored in the shop or truck.

Whether you need replacement bands or the entire kit, remember to contact The Ford Meter Box Company or your local Ford distributor.
