Product Recycled Content for LEEDS Certification

The Ford Meter Box Company, Inc. manufactures a full line of waterworks products using pre-consumer and post-consumer recycled materials integral to our resource conservation efforts. The recycled content information presented below is listed by product family based on the percentage weight according to the United States Green Building Council (USGBC) and LEED New Construction and Major Renovations regulation. The product-recycled content includes all post-consumer content complying with LEED Section MR 4 and does not include pre-consumer content such as internally generated rework, regrind, or scrap per MR 4 notes 2 and 3.

Product Family	Minimum Percent Post-consumer Recycled Content by Weight
Brass valves, check valves, couplings, elbows, tees, saddles, and other brass products	95%
Iron meter boxes, covers, frames, and lids	50%
Ductile iron saddles	62%
Ductile iron <i>imported</i> restraints	55%
Ductile iron <i>domestic</i> restraints	43%
Plastic lids (yokebox and round)	10%
Ductile iron <i>imported</i> pipe couplings	55%
Ductile iron <i>domestic</i> pipe couplings	35%
Metersetters, resetters, retrosetters, inside setters and other copper tube products	75%
Pit setters	30%
Coil pit setters	35%
Stainless steel tapping sleeves, repair clamps, inserts, and other stainless steel products	67%
