

The Ford Underground Connection

Our best products are
buried and forgotten

From the main to the meter, look for the Ford Meter Box Underground Connection.

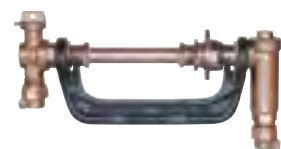

Ford Ball Valves withstand working pressures up to 300 PSI and are available with a wide variety of end connections. See Catalog Section G.

The Ford Coppersetter has the largest variety of meter and service line connections in the industry. See Catalog Section F.

Ford Yokeboxes provide superior protection for outdoor water meter settings in warm climates. See Catalog Section C.

Ford Yokes provide a convenient and durable setting for water meters. See Catalog Section E.

Ford Compression Fittings are available with Pack Joint, Grip Joint, Quick Joint, Ultra-Tite, Lead-Pak, Flare Copper, MIP, and FIP threads. See Catalog Section J.

Ford manufactures the Uni-Flange Series 1400 Retainer Glands for ductile iron pipe. See Catalog Section U.

Ford Plastic Pit Setters provide a fast and simple method of securing and reading outdoor meter settings in cold and moderate climates. Ford Plastic Pit Setters are available to accommodate 5/8" though 2" meters. See Catalog Section FA.

Ford Ballcorp Corporation Stops are made from waterworks brass, meeting AWWA C800 standards, and are designed to withstand working pressures up to 300 psi. See Catalog Section A.

Ford Ultra-Flex Couplings are available to connect any water main material and can transition (1.35" min.) between different pipe ODs of the same nominal size. See Catalog Section M.

Ford Cast Couplings offer an easy and economical way to join pipe, whether the pipe is of the same nominal size and type or different at each coupling end. See Catalog Section M.

Ford Service Saddles are available for installation of corporation stops on virtually any type of water main material. See Catalog Section AA.

Ford Curb Boxes provide access to open and close curb stops, enabling service line maintenance or meter change-outs. See Catalog Section GA.

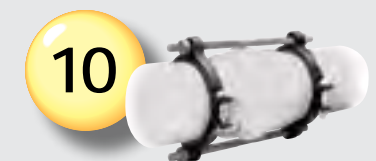

Ford Inside Meter Settings satisfy any indoor water meter setting requirement. See Catalog Section B.

Ford Meter Box has a complete line of Series 1500 Retainer Glands for C900 and Steel Pipe Size PVC. See Catalog Section U.

Ford offers a wide range of water main tapping sleeves. See Catalog Section AA.

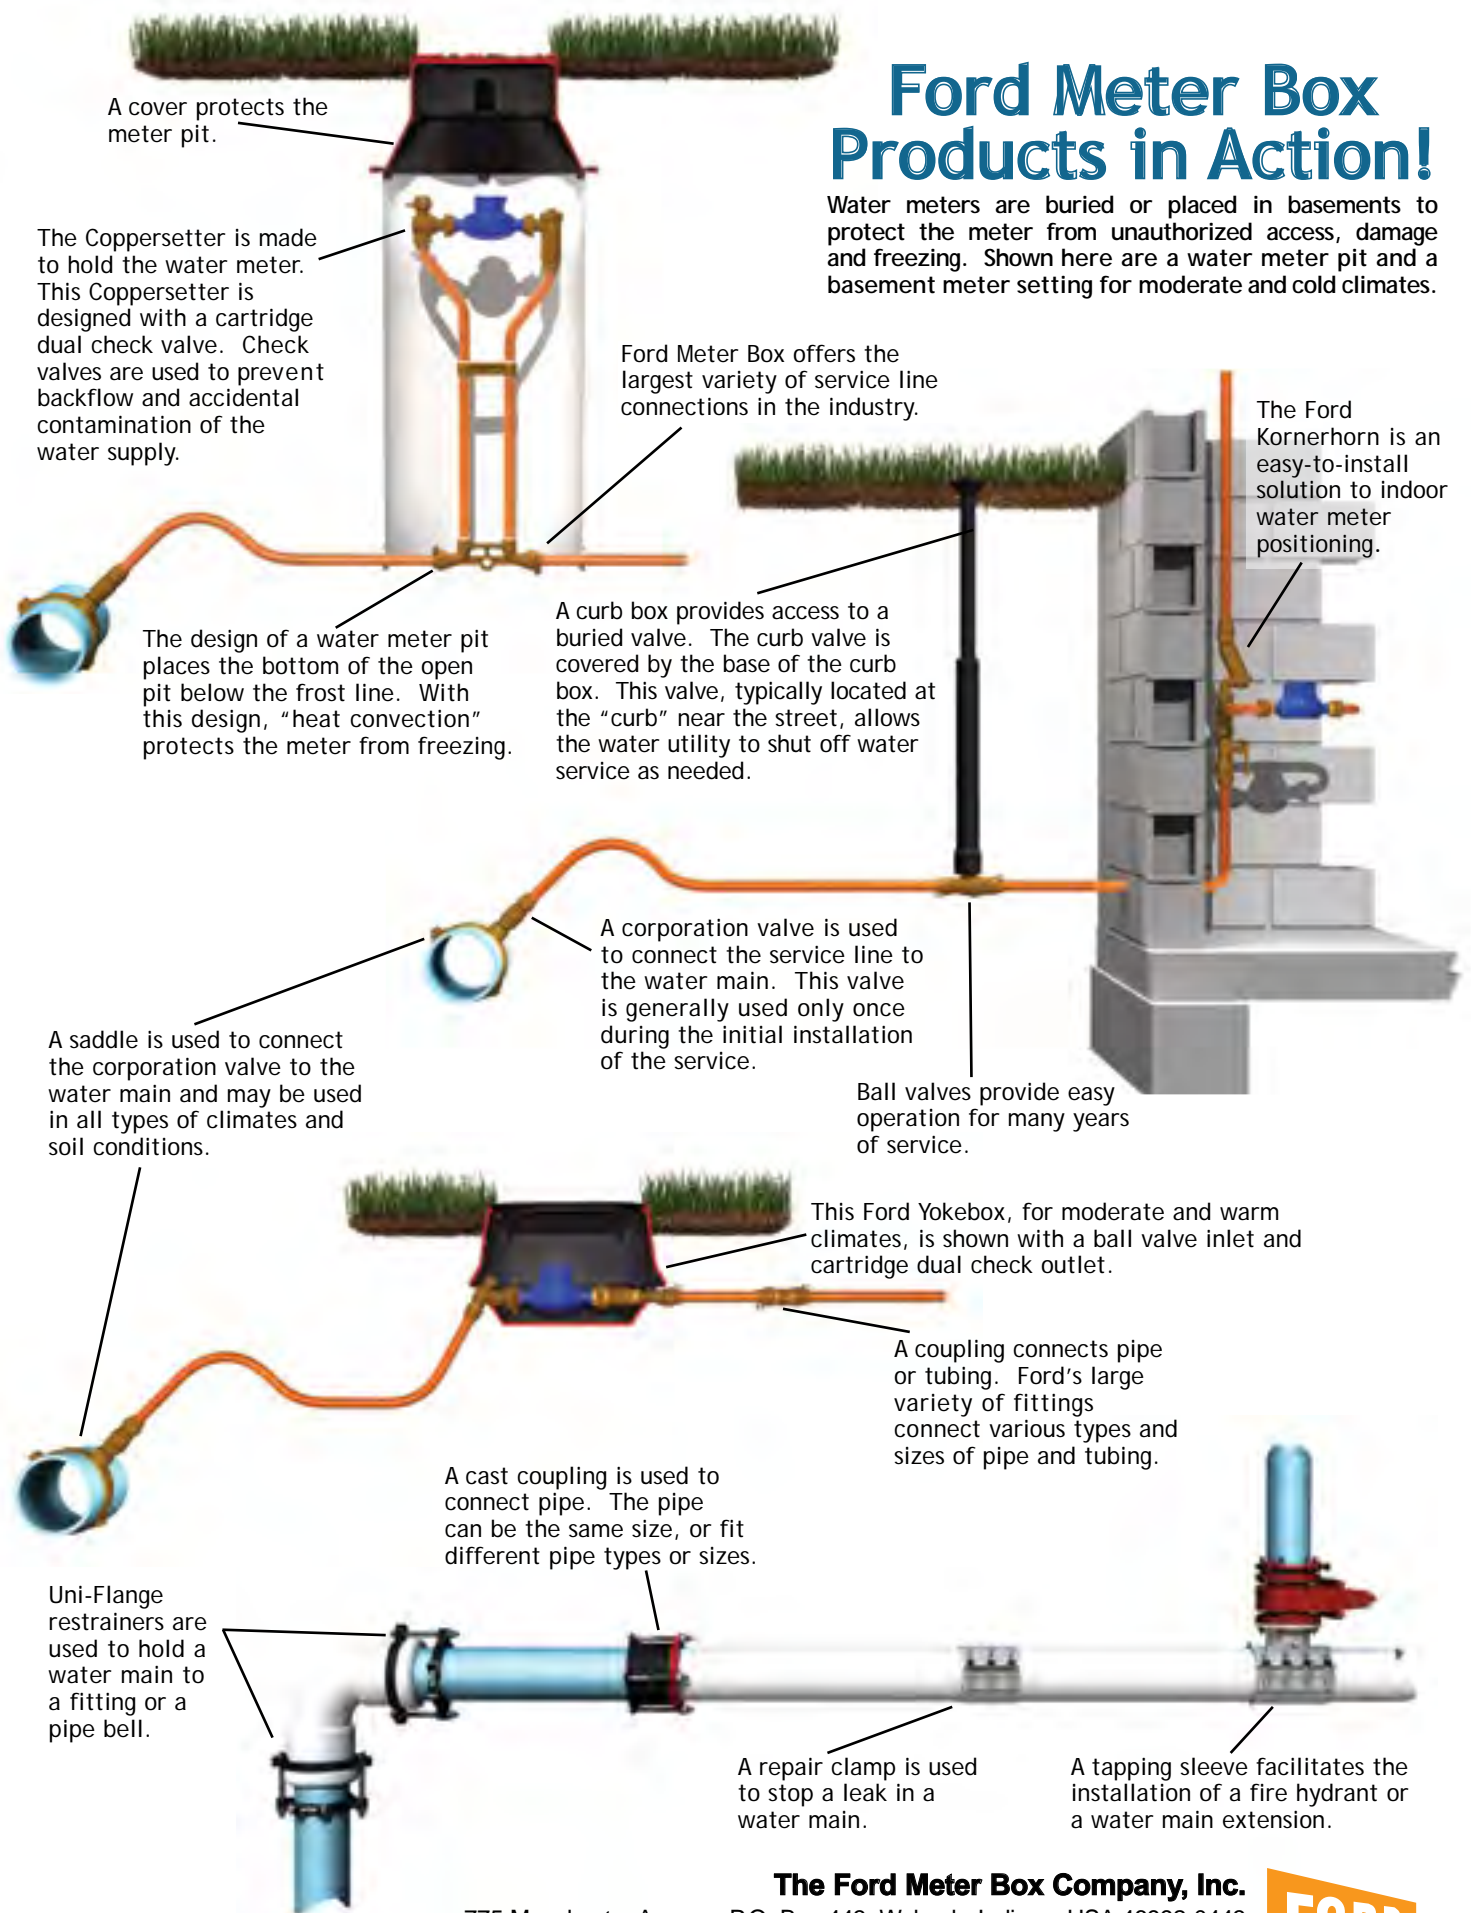

Ford has a full line of pipe restraints for C900 and Steel Pipe Size PVC pipe and associated fittings. See Catalog Section U.

Ford Repair Clamps are lightweight and a simple way to repair any type of leaking water main. See Catalog Section L.

Ford Meter Box Products in Action!

Water meters are buried or placed in basements to protect the meter from unauthorized access, damage and freezing. Shown here are a water meter pit and a basement meter setting for moderate and cold climates.
