FEATURES

- All brass that comes in contact with potable water conforms to AWWA Standard C800 (ASTM B584, UNS C89833)
- The product has the letters "NL" cast into the main body for lead-free identification
- Brass components that do not come in contact with potable water conform to AWWA Standard C800 (ASTM B62 and ASTM B584, UNS C83600, 85-5-5-5)
- Brass products certified to NSF/ANSI/CAN Standard 61
- Copper conforms to ASTM B75 or B88, UNS C12200
- All Ford® Setters are assembled with lead-free solder
- Meter is held rigidly and at the proper height for easy installation and removal.
- Meter Box Cover not included. Must be ordered separately.
- Service lines are a minimum of 2" from pit walls to prevent "frost jump" in colder climates.
- Easy installation - simply make inlet and outlet connections and install cover.
- When bottom of pit is below frost line, service and meter freeze-ups are greatly reduced or eliminated by the circulation of air from the warmer soil at the pit base.
- The directional angle ball valve shall be rated at 150 PSI when used as a customer shut-off on the outlet side of the meter
