FEATURES

- All brass that comes in contact with potable water conforms to AWWA Standard C800 (ASTM B584, UNS C89833)
- The product has the letters "NL" cast into the main body for lead-free identification
- Brass components that do not come in contact with potable water conform to AWWA Standard C800 (ASTM B62 and ASTM B584, UNS C83600, 85-5-5-5)
- Lightweight body is made from PVC tile, per ASTM D2241
- HDPE coil tubing, per ASTM D2737, SDR 9 CTS sized
 - Coil complies with AWWA C901
 - Coil is ANSI/NSF 61 Certified
 - Coil is rated at 250 PSIG working pressure
- Allows meter to be raised for meter access and lowered below the frost line to prevent meter and service line freeze-ups in colder climates
- Inlet and outlet valves are secured to a slotted, adjustable mounting plate
- Upper and lower mounting brackets secure the position of the mounting plate
- Male iron pipe service line connections are clearly identified for quick and easy installation
- Coil pits ship with a plastic idler to maintain meter spacing and alignment during transportation and installation
- *Flat cast iron cover, per ASTM A48, Class 25 (see PPSC lids in catalog section FA, ordered separately)
- Optional: Closed-cell polyethylene foam disc provides additional freezing protection (See CCID's in catalog section FA, ordered separately)
- Full port angle ball valves have a 360° tee-head rotation
