FEATURES

- All brass that comes in contact with potable water conforms to AWWA Standard C800 (ASTM B584, UNS C89833)
- The product has the letters "NL" cast into the main body for lead-free identification
- Brass components that do not come in contact with potable water conform to AWWA Standard C800 (ASTM B62 and ASTM B584, UNS C83600, 85-5-5-5)
- Certified to NSF/ANSI/CAN Standard 61 and NSF/ANSI/CAN Standard 372 where applicable
- Copper conforms to ASTM B75 or B88, UNS C12200
- All Ford® Setters are assembled with lead-free solder
- 1-1/8" copper risers provide more flow capacity
- Unless specified otherwise, Tandem Coppersetters are designed to hold a water meter in series with a pressure regulator
- Tandem Coppersetters include an "S" tube and a pair of male iron pipe by male meter thread regulator adapters for holding a pressure regulator
