FEATURES

- All brass that comes in contact with potable water conforms to AWWA Standard C800 (ASTM B584, UNS C89833)
- The product has the letters "NL" cast into the main body for lead-free identification
- Brass components that do not come in contact with potable water conform to AWWA Standard C800 (ASTM B62 and ASTM B584, UNS C83600, 85-5-5-5)
- Copper conforms to ASTM B75 or B88, UNS C12200
- Tie bar is standard for 18" and taller coppersetter heights (TVB72 Series)
- 13/16" copper risers provide more flow capacity
- All Ford® setters are assembled with lead-free solder
- Unless specified otherwise, tandem coppersetters are designed to hold a water meter in series with a pressure regulator
- Tandem coppersetters include an "S" tube and a pair of male iron pipe by male meter thread regulator adapters for holding a pressure regulator
- Double purpose union swivel will accommodate male iron pipe threads or flare copper
