### FEATURES

- Restraint is provided by a set screw locking device similar to that used in mechanical joint retainer glands
- The gasket is an EPDM transition gasket. Available with optional NBR (Buna-N) gasket
- Designed for ease of on-site installation. Eliminates bolt hole alignment problems and allows for pipe deflection
- Series 200 adapter flanges are not recommended for use on PVC pipe. Use the Uni-Flange® Series 900 flanges instead
