FEATURES

- Restraint is provided by a set screw locking device similar to that used in mechanical joint retainer glands
- The gasket is an NBR (Buna-N) transition gasket.
- Designed for ease of on-site installation. Eliminates bolt hole alignment problems and allows for pipe deflection
- Series 400 adapter flanges are not recommended for use on PVC pipe. Use the Uni-Flange® Series 900 flanges instead
- Optional uni-torque set screws are available for use with 2"-16" Series 400 adapter flanges for steel pipe, schedule 40 and up. To order, add "-UT" to the catalog number. Example: UFA400-S-6-UT-N
- Optional stainless steel set screws, type 410 per ASTM F593, are available for Series 400 adapter flanges in sizes 2"-24". To order, add "-SS" to the catalog number. Example: UFA400-S-6-SS-N
